# School Camping Trips

Learning Beyond Traditional Classrooms

# zabarwan

adventures

Our adventure camps for schools are designed for kids to learn something challenging from nature. We hope to tickle their imagination and infuse positive attitude by helping them live the uncertain, and accomplish beyond impossible.

Our activities keep them excited and engaged, while they breathe fresh air, climb mountains, and explore and absorb from nature all in a fun way with the help of friendly, well-trained and expert professionals from Zabarwan Adventures.
